

A DECADE OF VISIONARY LEADERSHIP

In 2000, Christine H. Grumm joined Women's Funding Network as President & CEO when philanthropy in the U.S. and throughout the world was on the cusp of momentous change. In the 11 years since, Chris has made an enormous contribution to Women's Funding Network, providing members and the broader philanthropic community with an enduring vision for a world where women and girls have full equality and justice. At the end of 2010, Chris announced she is leaving Women's Funding Network in June of 2011 to pursue new opportunities as an advocate and consultant for social change philanthropy.

During her tenure, our membership has grown and expanded, and Women's Funding Network has been strategically positioned as a major partner for all those working to create gender equality around the globe. Chris has brought Women's Funding Network to a new place of prominence and relevance.

Most importantly, Chris has influenced how the leadership of women's and girls' funds describe their work, raise money, and lead their communities. The results have been an exponential growth in assets, investments, sustainable social change, and impactful partnerships.
